

FOR IMMEDIATE RELEASE

Sea-Fire Marine Announces AT-Series Aerosol Fire Suppression Systems and Upcoming Boat Show Appearances

Baltimore, MD — October 28, 2025— Sea-Fire Marine, a global leader in marine fire detection and suppression systems, proudly announces the launch of its **AT-Series Aerosol Fire Suppression Systems** — a new generation of compact, eco-friendly fire protection solutions designed specifically for marine applications.

The **AT-Series** delivers rapid, reliable fire suppression for **engine compartments, electrical panels, battery enclosures, and other enclosed spaces** across a wide range of marine environments. The systems are **non-pressurized, maintenance-free, and environmentally responsible**, producing no harmful emissions, ozone depletion, or global warming potential.

As **boat show season** approaches, **Sea-Fire Marine and its local distributors** will be on-site to showcase the **AT-Series Aerosol Systems** and meet with consumers, dealers, and trade professionals. Visitors will have the opportunity to see the system firsthand, speak with technical experts, and learn how this innovative technology provides powerful protection for today's advanced marine vessels.

Upcoming Boat Show Appearances:

- **Ft. Lauderdale International Boat Show (FLIBS):** Fort Lauderdale, 10/29–11/2 – *Consumer*
- **Marine Log Ferries Conference:** Jersey City, 11/4–11/5 – *Trade*
- **Marine Equipment Trade Show (METS):** Amsterdam, 11/18–11/20 – *Trade*
- **Pacific Marine Expo (PME):** Seattle, 11/20–11/22 – *Trade*
- **International WorkBoat Show (IWBS):** New Orleans, 12/3–12/5 – *Trade*
- **St. Petersburg Boat Show:** St. Petersburg, 1/15–1/18 – *Consumer*
- **Miami International Boat Show:** Miami, 2/11–2/15 – *Consumer*
- **Palm Beach International Boat Show (PBIBS):** West Palm Beach, 3/25–3/29 – *Consumer*
- **Suncoast Boat Show:** Sarasota, 4/17–4/19 – *Consumer*

“With decades of experience in marine fire protection, Sea-Fire continues to advance safety through innovation,” said Ernie Ellis, President at Sea-Fire Marine. *“The AT-Series offers a compact, sustainable, and effective fire suppression solution designed to meet the needs of both commercial and recreational vessels.”*

The **AT-Series** is certified to **USCG and ISO 9001:2015** standards, ensuring reliability and compliance for vessels operating in U.S. and international waters. Designed for simplicity, the system installs easily without the need for complex piping or heavy hardware, making it ideal for both new builds and retrofits.
